

SAMEER GUPTA

+91 9305925384 | guptasameer533@gmail.com | LinkedIn | GitHub | Portfolio | LeetCode

PROFESSIONAL SUMMARY

Full-stack software engineer with two production internships building scalable, fault-tolerant systems in Python, TypeScript, and Node.js across RESTful APIs, microservices, and cloud deployments on GCP and AWS. Strong DSA foundations: Codeforces Expert (1657), LeetCode 1842. Designed and shipped a production LLM workflow orchestrator from scratch; experienced in end-to-end ownership from system design to production debugging.

EDUCATION

Indian Institute of Information Technology Kota (IIIT Kota)

Nov 2022 – Jun 2026

B.Tech in Electronics and Communication Engineering

CGPA: 7.0/10

- Coursework: Data Structures, Algorithms, Operating Systems, Computer Networks, Database Systems, OOP

WORK EXPERIENCE

Shipsy

Aug 2025 – Present

Product Engineer Intern

Gurugram, India

- **Built Global Search end-to-end** – shipped a **sub-100ms P95 latency** RESTful microservice with live indexing and a React/TypeScript frontend; highly available service handling thousands of concurrent enterprise users.
- **Reduced invalid API submissions by 80%** – designed a server-side input validation pipeline with secure coding practices and unit/integration tests; enforced data integrity across distributed backend services.
- **Improved system reliability by 15%+** – instrumented critical paths with metrics and structured logging on GCP; resolved recurring production incidents via root-cause analysis before user impact.
- **Built fault-tolerant backend automation pipelines** – automated multi-step enterprise workflows with peer-reviewed, maintainable code and full test coverage, cutting operator toil by **40%**.

Salesqueen Software Solutions Ltd

May 2024 – Jul 2024

Software Engineer Intern

Remote

- **Built and shipped full-stack features** – RESTful APIs with authentication middleware and input validation, React dashboard with unit tests; deployed and iterated on real user feedback.

PROJECTS

NextFlow – LLM Workflow Orchestrator | *Next.js, TypeScript, React Flow, Trigger.dev, PostgreSQL, Prisma*

[Live](#)

- **Designed a concurrent DAG execution engine from scratch** – memoised parallel fan-out, topological traversal, and structured failure propagation; fault-tolerant microservices-style task execution with CI/CD deployment. Live in production.
- **Implemented optimistic concurrency control** for multi-tab version conflicts, scoped realtime access tokens per run for security, and fault-tolerant task graphs – each decision driven by a specific failure mode.

KisanMitra – Contract Farming Platform | *Next.js, Node.js, Express.js, MongoDB*

[Live](#)

- **SIH 2024 National Finalist** – Built and shipped a full-stack platform with RESTful APIs, MongoDB, and real-time data flows; defended technical decisions to national judges.
- **Engineered race-condition prevention** for multi-party contract negotiations under concurrent load; shipped with full unit and acceptance test coverage.

Resource HUB – Academic Platform | *Node.js, Express.js, Firebase, MySQL*

[Link](#)

- **Scaled to 900+ active users** on a MySQL and Firebase backend; traced and resolved real-time data consistency failures under concurrent read/write load via root-cause analysis.
- **Shipped an LLM-powered study assistant** – diagnosed and resolved latency and reliability issues post-deployment; improved user engagement by **60%**.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, C++, SQL

CS Fundamentals: Data Structures & Algorithms, OOP, System Design, Complexity Analysis, Problem Solving

Backend & Databases: Node.js, RESTful APIs, PostgreSQL, MySQL, MongoDB, Microservices, Elasticsearch

Frontend: React.js, Next.js, TypeScript, Redux Toolkit, HTML5, CSS3

DevOps & Tools: Docker, Kubernetes, GCP, AWS, CI/CD, Linux, Git, Agile

AWARDS & ACHIEVEMENTS

- **Codeforces Expert** – Max Rating 1657; LeetCode Max Rating **1842**; CodeChef 5-Star Max Rating **2043**.
- **Smart India Hackathon 2024 Finalist** – Selected among top teams nationally; built and demoed KisanMitra end-to-end.
- **President, TechKnow Society** – Led a 50-member team organizing technical events and national-level hackathons.
